

agile
process

near infinity

We deliver great software, fast.

Apologize in advance, Decided to do this presentation less than 24 hours ago, so we will see how ready I really am,

software
design

For those who do not know me, ~~the~~ I
am S. M. and I work on the QLTIX
team. ^{we do} ~~we do~~ "big data" stuff for the
customer.

development
& testing

frameworks & tools

deployment

John
of Kansas

products

(Tootpad is a staple but Sun Keyboard too often adds only on weekends. The prices I will be demonstrating today are not specific to Tootpad however)

agile
process

near infinity

We deliver great software, fast.

So. Methods.

Manufacturing / generating / managing food 13

software
design

development & testing examples
 Ruby vs Java vs Clojure
 on the JVM Data vs Web vs Mobile

development & tasting

When you will often need to take one block of text and shape it down, modifying it and reformat it to be used some other way:

framework & tools

START SOURCE 1

deployment

So when you are presented with a down
thus of text you can:

- ① How to buy land (bedrooms) &
- ② Write a program (how much / time constraints)

products

Macros fill the gap between the individual and the complex
